The Green Economics Institute
Invitation to write

Visioning
The Post-oil Gulf Area

Exploring the considerable potentials and current challenges

In light of the immense energy problem facing Gulf region, countries find themselves forced to the wall in meeting an increasing energy demand meantime respond to climate preservation calls while attaining high growth rates. In a region that is heavily dependent on oil, the question of sustainability is raised on board. The sensitivity of the energy problem in the Gulf area stems from the fact that energy is embodied in all activities. In other words the contribution of oil vis-a-vis non-oil sectors to the economy is alarming.

Suggested areas covered by the Project

Suggested ideas include - but not limited to- the greening of energy subsidies, the role of non-hydrocarbons in restructuring growth in gulf area, the cost of conversion to green economy, potential finance schemes of green energy…etc.)

Editors on project:

Miriam Kennet, UK

Hend Saadeldin, Egypt

and many more

Invitation to write and Call for Papers and Chapters.

The Green Economics Institute is very active in spreading Green Economics around the Gulf region at all levels and in all walks of life, where our work is attracting a great deal of interest. For the first time we are bringing this experience together in one contributed volume of voices from Mena region and voices from the Green movement which gave rise to this policy creation, implementation, campaigning and academic movement. The book is compiled by the global leaders in this field with a number of high profile specialists.

We are especially keen to receive papers on any aspect of green issues, or economic issues from any and all individual country/countries in Gulf region and papers dealing with regions and themes in the Gulf area and cross border themes too. We will accept sections, whole chapters, subsections and papers.

We will launch the book in July 2016 at our Green Economics Institute Conference at Oxford University

Instructions for writers' submissions

We would be pleased to receive papers ready to put into our chapters on any of the above themes or ideas for them. We are giving preference to our members, our students and our supporters.

If you are going to write please let us know now by emailigreeneconomicsinstitute@yahoo.com.

We welcome diverse contributions and we especially welcome and help with contributions from new writers or other ideas. The writing can be anything from 2 sides A4 or more. Ideally between 2 sides and 10 sides each. We will mix academic, institutional, research, polemic, simple and more complex writing, political, policy makers, government academic, campaigning, institutional and business styles of writing as this is much more exciting to read. Contributions can be of a practical, theoretical or philosophical or research, policy, implementation, case study, examples, best practice, or campaigning nature.

Please ensure you give citations for any items you have not written yourself and photos must all be attributed to who took them. References must be Harvard style- and we do not accept footnotes. Please ask for further information or guidance if you need it. Please ensure you do not infringe anyone else's copyright.

We look forward to hearing from you very soon and to your writing for this exciting project. We are very happy to advise you about your possible contribution so do not hesitate to contact us 00 44 (0) 7990 590463

Looking forward to hearing from you and receiving your ideas, abstracts or book chapters.
